LA CAMPAGNE & LA CITÉ

A Journey in Every Tile.

Bonjour.

My family has spent much of the past two decades traveling throughout France, exploring the cities and countryside towns, drinking in the culture, architecture, and design.

The unique approach to color, saturation, history, and quality of materials have always stood out to me as I have traveled through the country, and as I have explored– I have discovered inspiration everywhere– in the brilliantly colorful doorways of Dijon, the awe-inducing leaded glass windows of the cathedrals of Paris, down to the simple woven wicker chairs of our local village brasserie.

My desire is to bring this ethos of materials, joy, and love of color to our collaboration with Villa Lagoon.
