- Bar Backs

*Cement tiles must be carefully sealed for indoor and outdoor use, and temperature extremes must be considered.

Installation and Maintenance Guidelines

- Your shipment of tiles will be unsealed and MUST be stored indoors until they are installed.
- Cement Tile is porous, and must be sealed to protect against moisture, stains, and ground-in dirt.
- Cement tile WILL vary in small ways from tile to tile, it is a handmade product. EXPECT color tonal variation
- Pull tiles from different boxes to balance color and tonal variation.
- It is recommended to seal with a topical sealer before and after grouting.
- A non-tinted neutral gray grout is best for tiles with light and dark areas.
- Periodic resealing is recommended in high traffic areas.
- Read the installation manual carefully.

Every cement tile project is unique. Cement Tile is a specialty product, and requires a carefully chosen sealant.
